Bartłomiej Treśka

I am a third-year Computer Science student at AGH University of Science and Technology in Kraków. I have been interested in programming for several years – I started as a self-learner, writing simple Python scripts. As I became more familiar with the language, I began developing automation programs. During my studies, I became interested in web development, and now I enjoy working on back-end development, primarily for web applications.

Phone:

+48 730 436 609

Date of birth:

07.10.2003

Skills

Backend: Python, Java, Kotlin
Frontend: Javascript, Typescript
Bazy danych: MySQL, MongoDB
Narzędzia: Git, Docker

Languages

- Polish - native (C2)
- English - advanced (C1)

Work experience

01.07.2024 - 30.09.2024

Pegasystems Software Limited sp. z o.o. - Poland Branch

Back-end Software Engineer Summer Intern

Main responsibilities:

- Adding new features to the back-end services
- Improving observability and monitoring
- Fixing bugs and software issues
- Working in a SCRUM environment with microservices architecture
- Software testing

Education

2022 - Present
AGH University of Science and Technology in Kraków
Field of study: Computer Science
Specialization: Software Engineering

My projects

- Cooking recipes website
- Console application for multi-criteria optimization
- Simulation of simple road traffic at an intersection
- Program for logging device working time each day
- Screenshot tool with automatic cloud upload
- Personal tutoring website
- Online store
- Simulation of simple organisms' life
